

How the Adoption Process Works

The first step is to complete an adoption application, available from reception, which details your requirements and preferences

A member of staff will run through the form with you, answer any questions, and check whether there is a suitable dog or dogs for your consideration

Please Note

The general public cannot access the kennel area to see all the dogs. This is to keep disturbance, excitement and stress to a minimum for the dogs, some of whom are already suffering due to their change in circumstances

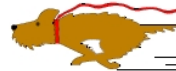

Any suitable dog will be brought out to meet you. You can spend some time with the dog and take it for a walk. Staff will be able to give you advice regarding the particular dog and you can ask any questions

Whilst enjoying your time with the dog please give careful consideration as to whether it is the right dog for you and you are happy

to undertake the commitment that owning and caring for a dog requires

If you already have other dogs it is important that they meet any new addition to your family. If your existing dog or dogs are not with you this can be arranged. If you do have

your dog with you staff will supervise the introduction.

X If you feel that the dog offered is not right for you please let us know. You are under no obligation to take the dog and our staff will be happy to help you find a more suitable companion

✓ When you are happy and wish to adopt the dog a staff member will run through the adoption paperwork, our conditions and fees with you

A home visit will be carried out 4-6 weeks after the adoption to ensure that you and your new dog are happy and to answer any more queries you may have

In the meantime...

If you have any problems or concerns please contact us, we are here to help
